AGENCY FOR BUSINESS.

**With U. S. Patent Office**
WASHINGTON
**NO. 22 STATE STREET, BOSTON.**

IN 1840 the subscriber was appointed by the Commissioner of Patents Agent of the U S Patent Office, in accordance with the 10th Sec of Act of '37.

Having established the Agency for the transaction of Mechanical and more expeditious mode of forwarding them to the Patent Office, *where a model is wanted*, to forward the specimen of expense—to prepare Caveats, Specifications, Assignments and all the necessary Papers and Drawings for Patents and render advice on legal and scientific points connected with the same. Patents secured in Europe and the British Provinces.

By applying at this office inventors are saved the time and expense of a journey to Washington and the risk as well as all personal trouble in procuring their patents. They also have the advantage of personally explaining their inventions and conversing in person with the Examiners in case any objections should be made to them, *which often, in order to obtain correct decisions, is necessary.* The experience of several years and the extensive collection of Books, Models and Specifications of mechanical subjects, both of Laws and patents of different countries, collected at much expense during the time in which the agency has been established, together with the Models here kept of inventions patented at Washington enable the subscriber to afford to inventors peculiar facilities for procuring Patents, assistance in which cannot be obtained in other respects at any attainment.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.

During the time I occupied the Office of Commissioner of Patents I appointed R. H. EDDY, Esq., of Boston, my Solicitor of the Patent Office, as before the public, that there were few, if any, transacting that business who had so much knowledge of the Patent Office, and there were none who could be more relied with more skill, fidelity and success. I consider Mr. Eddy one of the best mechanical Solicitors at the Patent Office, and have no hesitation in assuring inventors that they cannot employ a person more competent, well and more capable of conducting their applications in a form to secure for them a favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

...AND...
**Diarrhœa Cordial,**
AN
**Immediate and Perfect Remedy,**
...FOR...
**Cholera, Dysentery, Summer Complaints of Children, Diarrhœa, Sea Sickness, general Debility, &c.**

WHERE this all powerful antidote is at hand, Cholera is no longer to be seriously feared or looked upon with terror—as this Cordial will most assuredly cure the disease in the course of a few hours if taken at the commencement—

It has been before the public for more than seventeen years and was the first article made known to the public as an

IMMEDIATE AND PERFECT CURE
OF THE
CHOLERA.

It has been thoroughly tested in every country and every climate, and its effect has everywhere proved the same,

*SURE TO CURE,*

even where the disease has advanced to its last stages.

# CHOLERA.

Accounts almost daily reach us of the ravages of the CHOLERA both at home and abroad and of the little success which has thus far attended the attempts to check its frightful inroads on human life.

Such being the fact, it surely may be regarded as an era in modern discoveries that a medicine has been discovered possessing the power of checking the progress of the Cholera, and eradicating it from the system.

Mrs Kidder would most respectfully call the attention of the public to this invaluable medicine, known as her

"CHOLERA, DYSENTERY AND DIARRHŒA CORDIAL."

Many thousand lives have been saved by this medicine, when the disease had advanced to its last stages.

It is hoped that every housekeeper will keep the Cordial at hand and if timely administered but little danger is to be apprehended from an attack of the

Cholera, Dysentery or Diarrhœa.

This Cordial instantly checks the vomiting relieves the pains, stops the Diarrhœa and restores the bowels to a perfectly regular and healthy state however severe the attack may be, or however low the patient may have become it invariably restores

The Severest Cases of Dysentery

are immediately counteracted the pains allayed, the bowels healed and not unfrequently the bowels become perfectly regulated and restored in the short space of ten or twelve hours.

Chronic Diarrhœa,

Either in children or adults, of months or years continuance is most readily cured with this Cordial, notwithstanding they may be reduced to mere skeletons, it immediately strengthens, and shortly restores them to perfect health.

Cholera Infantum.

It has saved the lives of many thousand children when reduced to death's door by this complaint,—it gives them immediate relief, and they very soon recover.

Sea Sickness.

It is a most pleasant and desirable remedy for Sea Sickness. It checks the vomiting and readily restores the patient. It invariably checks vomiting proceeding from any cause whatever.

Children that are Teething,

if inclined to Diarrhœa should always be provided with this medicine as it will keep the bowels regulated and keep off the Canker. It is wholesome as a cordial as to the taste, and children are fond of it, and will take it without trouble or delay.

For General Debility and Dyspepsia,

it is a most excellent restorative, giving a healthy tone to both the stomach and bowels, and prevents food from pressing or distressing the stomach.

The public may rest assured that it contains neither opium or mineral substances, or anything that is in the least injurious to the constitution.

CAUTION.

Be sure that you obtain MRS E KIDDER'S CHOLERA MORBUS DYSENTERY AND DIARRHŒA CORDIAL, and you will get the only true and original article, which has ever been in the highest estimation by the public throughout the whole country.

It is put up in bottles holding nearly a quart, intended for family use, and sold at One Dollar per bottle.

**Holden's Alterative and**
**TONIC MIXTURE,**

Its action is that of a mild Alterative and Tonic, restoring health and strength often when [illegible] any sensible evacuation, and without leaving behind any unpleasant effect on the constitution.

By its use the appetite becomes regular and good, digestion perfect sick headache and many nervous disturbances growing out of imperfect digestion are generally cured persons of debilitated constitutions become healthy and strong while nervous sufferers are greatly benefited.

**N. F. DOWN'S**
**Vegetable Balsamic Elixir,**
**The Great Northern Remedy for Consumption,**

ALSO, the most effectual remedy in the world *for Colds, Coughs Whooping Cough Croup or Quinsy, Asthma Pain in the Side or Stomach*, and all diseases of the LUNGS AND LIVER.

This medicine is purely vegetable, and is by far the most effectual medicine known for all the ills affecting the BRONCHIAL OR PULMONARY ORGANS.

Its effect upon the patient is most marked and differs from that of most medicines recommended for the same complaints, in the following particulars.

1st—It never irritates the organs it should soothe—never dries up the cough, leaving the cause untouched—but first *loosens the cough, increases the expectoration or spitting* then removes the cause, *eradicating it completely* from the system, when as a matter of course the *cough ceases*, and the patient is well.

2d—It never produces convulsions in the consumptive patient—on the contrary, it has a laxative effect and is a mild cathartic. We defy the world to produce a case of costiveness so inveterate but that in two or three weeks (the patient in the mean time having proper regard to diet) it will entirely remove it, and produce a healthy action of the bowels.

3d—It does not produce a *dryness of the skin* but is a powerful promoter of *sensible and insensible perspiration*, thus expelling by the pores of the skin, those nauseous fluids and impurities of the blood the retention of which on the system is the *sure precursor of* DISEASE SICKNESS AND DEATH.

We do not pretend that DOWN'S ELIXIR is a specific for all the ills that flesh is heir to, but we do say, and can confirm it by incontestable evidence, that for

CONSUMPTION,

And all all disease of the *lungs the liver and the pulmonary organs* it is *unrivalled—unequalled*—HUNDREDS by have been snatched from an UNTIMELY GRAVE, and hundreds who *defy set too long* its use, have found in the advanced state of their disease, the RELIEF FROM SUFFERING which they had vainly sought from every other source.

This INVALUABLE MEDICINE is *highly concentrated* and put up in 2 oz and 4 oz bottles at fifty cents and one dollar per bottle, and each bottle warranted to contain MORE CURATIVE PROPERTIES than four bottles of any of the *weak adulterated* patent bottle preparations of the day.

We have received *hundreds of certificates* of its wonderful cures, from every part of the country many of which have been published *and may be had gratis of any of our agents.*

Sold wholesale and retail by DUTTON & SMITH General Agents for Maine, Vt., to whom all orders for supplies of this medicine should be addressed (stating the best mode of sending it)—also sold by agents in nearly all the villages and towns in the country.

GRAY HAIR can be restored to its original color or with either Auburn Brown or Black Sandy Light or Red Hair can be matched with any darker shade, surpassing in beauty even the most natural locks, retaining the gloss and softness of the original Hair, by using O M Ballard's

**Permanent Liquid Hair Dye,**

Of one preparation which is entirely different from all other preparations of Hair Dye now before the public. It is free from all injurious properties, which can be tested by taking a lock of the finest and most delicate Hair of an infant, and color it with the Dye which will not impair its gloss or its texture in the slightest degree, which is the best evidence which can be given that it is not injurious. On the contrary, it not only restores the lustre of the Hair, promotes its growth, and prevents it from falling out (which unlike other preparations after the Hair is colored and dry, will not crock, fade, or wash out.

In short from its peculiar delicacy softness, and ease application, it is worthy the attention of all who may wish to improve the color of the Hair as it will make very shade, from a white to a jet black. It is now used to an unaccountable extent by persons who have prematurely turned gray and others whose Hair is of no desirable color, which they restore or exchange for a beautiful Auburn Brown or Black, without any additional preparation or the slightest trouble.

## CAUCUS.

The Whigs of Ward Three are notified that here will be a Caucus ... House on Hudson Street, THIS WEDNESDAY, EVENING, at half past seven o'clock, for the purpose of nominating a candidate for Alderman of said Ward. Per order

Sept 19, 1849

☞ We happened, a day or two since, to employ the word 'humanitarian' in a sense enlarged from its strict, technical theological meaning. This has subjected us to some criticism. Perhaps a better word might have been selected, had we taken pains just then, to have made a selection. Our idea was not confined to the technical sense of the word, but that of its general etymological character as embraced in humanity, or human nature—as feeling for man, compassionate, benevolent, kind, being solicitous for the welfare of humanity or human kind. We felt that that by which we are distinguished as human beings, is the possession of a will and understanding, and the perfection of these consists in willing what is good, and understanding what is true, so that the more good we will, and the more truth we understand, the more we are truly human, and the more completely are we distinguished, as such from the rest of the animal creation. It follows, then, that the more interior is our wisdom, the more do we see of the internal purity or infinity of the divine purity; the more spiritual we are, the more do we see the divine spirituality. A further enlargement of the idea is found in all those efforts, means, and appliances by which man is civilized and humanized, developed, improved, elevated. Mickle speaks of this as the humanization of mankind.

This enlarged sense seems to be fully justified by Richardson, and other authors.

The term philanthropic would very nearly express the idea we intended to convey, but not quite—humanition might have been better sustained by authority, but less likely to have been popularly understood at first sight. Our object is not so much now to defend the use of the word as to explain our intended meaning by its use, having accomplished this, we shall let the criticism slide.

### Cholera in Bangor.

Tuesday Sept 18, 1849, 7 o'clock P M.

There is only one case reported and that one of yesterday, the patient is doing well.

There are no deaths by cholera to day.

☞ The weather, yesterday, was clear, bright, bracing and beautiful. It seems to have had a very sensible and happy effect upon the health of our city. Should it continue pleasant and our people carefully attend to the very first indication of disease and are prudent in their living, their eating, drinking, and clothing, we may hope that the health of the city will again become established. Let all efforts be directed to this end.

☞ The report of the committee of the Horticultural Society on fruit, which we publish to-day, will be found of interest as showing the varieties of fruit raised in this city and vicinity, as the result of a few years' effort on the part of a portion of our citizens.

☞ We understand that the public schools in the city, will commence on Monday, October first, instead of the twenty fourth of September, which latter day was named in the notice of the School Committee, through a mistake. d3t

☞ We have a letter from our correspondent "R B C" giving an account of his visit to Valparaiso, which we shall try and find room for, to-morrow.

☞ The Whigs of the Third Ward, should remember the Caucus this evening, and the special election of Alderman to-morrow.

The fruits exhibited at the Horticultural Hall considering the short notice and the limited time the executive committee had to make the necessary preparations for the exhibition, were very fine, and for the first effort it far exceeded the expectations of our citizens. It is but a few years since the attention of our citizens was called to the subject of cultivating choice fruit in Bangor and vicinity, and their laudable efforts have been crowned with success.

No premiums are this year to be awarded, but the committee give it as their opinion that the following specimens are very perfect and are deserving of further notice. We therefore again give the names of the *extra fine* samples of fruits, and best specimens of several varieties in the following

### Foreign Correspondence of the Whig and Courier.

BY E M P.

(Continued)

POETS' CORNER.—Here lie the authors of most of our standard poetry; and the place excites pleasanter emotions than any other spot in the Abbey. The inspiration one feels here is not suggested by the memory of the *warrior*, whose physical ability or military prowess may have gained him some fading laurels, but by the memory of the gentle poet, who sang perhaps in poverty and obscurity, but whose trophies were the hearts of men, and the admiration of successive ages. Among these monarchs of the heart and mind lies *Edmund Spenser,* author of the 'Faerie Queene.' A plain tablet, bearing the following inscription, marks his resting place: 'Heare lyes (expecting the second cominge of our Saviour Christ Jesus) the bodie of Edmond Spenser, the Prince of Poets in his tyme, whose divine spirit needs noe other witnesse than the works which he left behinde him. He was borne in London in the yeare 1553 and died in the year 1598.' Thus much says the inscription, but history furnishes the additional melancholy item that this sweet 'stranger of pearls' died from lack of bread,' and was buried at the expense of the Earl of Essex.

Near Spenser is a bust and tablet to the memory of *John Milton,* author of 'Paradise Lost' beneath which is the very appropriate device of a Lyre encircled by a Serpent holding an apple in its mouth.

"Three poets in three distant ages born,
Greece, Italy, and England did adorn;
The first in loftiness of thought surpassed,
The next in majesty—in both the last.
The force of nature could no farther go,
To make the third she join'd the other two."

In Landor's imaginary Conversations may be found the following passage: 'Never did England since she first emerged from the ocean rise so high above surrounding nations. The rivalry of Holland, the pride of Spain, the insolence of France, were thrust back by one finger each, yet those countries were more powerful than they had ever been. The sword of Cromwell was preceded by the mace of Milton—by that man, which, when Oliver had rendered his account, opened to our contemplation the garden-gate of Paradise. And then were at me around not unworthy to enter with him. In the compass of sixteen ages, you will not number on the whole earth so many wise and admirable men as you could have found united in that single day, when England showed her true magnanimity, and solved the question, which is most, *one or a million*. There were giants in those days; but giants who feared God, and not who fought against him.'

*James Thomson,* author of the 'Seasons.' The poet is represented sitting, on the pedestal is a bas-relief of Cupid.

"Tutor'd by thee, sweet Poetry exalts
Her voice to ages and informs the page
With music, image, sentiment, and thought,
Never to die."

*John Dryden,* poet laureate and dramatist, a fine bust in a large alcove.

This Sheffield raised, the sacred dust below
Was Dryden once, the rest who does not know?

*An old paper, called the 'Postman and the Postboy, contains in its number of May 14th, 1700, the following record: 'The corpse of that great and witty poet, John Dryden, Esq, having lain in state for some time in the College of Physicians was yesterday carried in great state to Westminster Abbey, where he was interred with Chaucer, Cowley, &c. But, before he was removed from the College, Dr Garth made an excellent oration in praise of the deceased; and the Ode of Horace, beginning 'Exegi monumentum aere perennius,' set to mournful music, was sung there, with a concert of trumpets, hautboys, and other instruments. The corpse was preceded by several mourners on horseback, before the hearse went the music on foot, who made a very harmonious noise. The hearse was followed by twenty coaches drawn by six horses, and twenty-four drawn by four horses each, one of them in mourning.'

*Oliver Goldsmith;* a tablet with medallion profile. In 'Boswell's life of Johnson' may be found the following: 'I remember once,' said Dr Johnson, 'being with Goldsmith in Westminster Abbey. While we surveyed Poets' Corner, I said to him, 'Forsitan et nostrum nomen miscebitur istis.' (Perhaps our names also will be mixed with these.) Returning, when we got to Temple Bar, (where the heads of traitors were exposed) he stopped me, pointed to the heads upon it, and slily whispered to me, 'Forsitan et nostrum nomen miscebitur istis.'

*William Shakespeare* —a full length statue of the immortal bard leaning on a pedestal whereon rests a scroll inscribed with lines from the Tempest:—

"The cloud-capp'd towers, the gorgeous palaces,
The solemn temples, the great globe itself;
Yea, all which it inherits shall dissolve,
And like the baseless fabric of a vision
Leave not a wreck behind."

*Ben Jonson*—Poet-laureat and dramatist. A tablet with medallion; beneath are masks of Comedy and Tragedy.

"The fox, the alchymist, and the silent woman
Done by Ben Jonson, and outdone by no man."

The body of the poet lies beneath the pavement in the nave, and over it is a small stone which bears the brief but comprehensive epitaph, 'O rare Ben Jonson"—which was done,' says an old chronicler 'at the charge of Jack Young, afterwards knighted, who, walking here when the grave was covering, gave the fellow eighteen pence to cut it.'

In close proximity with the best dust of England, and a part of it, lie the remains of Chaucer, Cowley, Gray, Garrick, Sheridan, Dr Johnson, Campbell, Southey and a host of others who shone in the intellectual firmament of England in the seventeenth and eighteenth centuries. Among these illustrious poets and scholars, lies one to whom length of life has given his only celebrity. 'Thomas Parr, borne A D 1483, lived through the reign of ten Sovereigns, died A D. 1635, aged 152 years.' For the information of your youthful readers who are desirous of living a long and healthy life, I subjoin old Parr's secret, as revealed to us by Taylor, the Water-poet:

"From head to heel his body had all over
A quick set, thick set, natural hairy cover.

Good wholesome labor was his exercise,
Down with the lamb, and with the lark to rise,
In mire and toiling sweat he spent the day,
And to his team he whistled time away.
The cock his night clock and till day was done,
His watch and chief sundial was the sun.
He entertained no gout, no ache he felt,
The air was good and temperate where he dwelt,
While mavises and sweet-tongued nightingales
Did chant him roundelays and madrigals,
Thus living within bounds of Nature's laws
Of his long-lasting life may be some cause."

In the South aisle of the nave is a monument erected by King George III, to the memory of *Major Andre*, executed by Washington as a spy in 1780. On the monument is a figure of Britannia weeping; the bas-relief represents the flag of truce being conveyed to Gen Washington. This has been called the most unfortunate monument in the whole Abbey, for within a period of fifty years the head of Washington has been three times broken off. From this fact we are not at liberty to deduce the inference that the outrage is indicative of the general feeling, or receives general approbation, for high English authority has decided that 'the mutilators of the monument should have beheaded Andre, not Washington.'

Near by reposes the body of *Mrs Oldfield*, an actress of some note in her day. The lady we are informed lies buried 'in a very fine Brussels lace head, a Holland shift, with a tucker and double ruffles of the same lace, a pair of new kid gloves, and her body wrapped up in a winding sheet.' Pope took advantage of this pardonable weakness of the lady, and uttered himself sarcastically thus:

"Odious! in woolen! 'twould a saint provoke"
(Were the last words that poor Narcissa spoke)
"No, let a charming chintz and Brussels lace
Wrap my cold limbs, and shade my lifeless face,
One would not, sure, be frightful when one's dead,
And—Betty—give this cheek a little red."

Against the screen of the choir is the monument of *Sir Isaac Newton,*

"Whose sacred dust
Sleeps here with kings, and dignifies the scene."

The great philosopher is represented reclining, with his right arm resting on his own works while two Genii stand with a scroll at his feet, to which he is directing attention. Above is a globe of the heavens, with the course of the comet of 1681, and the genius of Astrology, a reclining figure, surmounts the whole. On the base is the allegorical aloe for immortality, and the steel-yard and star to indicate the great law of gravitation by which that immortality was acquired.

*William Wilberforce.* The Philanthropist is represented sitting in an arm-chair, holding a book. Eminent as he was in every part of public labor, and a leader in every work of charity, whether to receive the temporal or spiritual wants of his fellow men, his name will ever be revered, and specially identified with those great exertions which removed from England the curse of the African Slave Trade.

In the North transept is a monument to the memory of *George Canning*. The Prime Minister is represented standing erect in flowing robes, and holding a scroll, books lie at his feet. It has been said of Canning that 'no man living had the same earnestness of voice, the same carelessly diffused grace of manner, the same simple dignity of style and happiness of expression, the same flowing eloquence, and, when necessary, the same overwhelming vehemence of delivery. The characteristics of his style were, its rapid harmony, its lucid arrangement, and its freedom from affected phraseology. It was here, classical, transported, and musical almost to faultiness.'

*William Pitt.* The great orator stands speaking, while History records his words, and Anarchy sits in chains before him. This monument cost £6300, the highest sum ever granted by Government.

"Where—taming thought to human pride—
The mighty chiefs sleep side by side,
Drop upon Fox's grave the tear,
'Twill trickle to his rival's bier;
O'er Pitt the mournful requiem sound,
And Fox's shall the notes rebound.
The solemn echo seems to cry—
'Here let their discord with them die!'
Speak not for those a separate doom,
Whom Fate made brothers in the tomb;
But search the land of living men,
Where wilt thou find their like again."

*Charles James Fox.* The great Statesman is represented expiring in the arms of Liberty with Peace before him, and a kneeling negro at his feet.

The following record, though of no particular interest, I send you for the beauty of the sentiment contained in the inscription. A small tablet to Grace Scot, wife of Col Thomas Scot, a member of king Charles Long Parliament.—She died 1645.

"He that will give my Grace but what is hers,
Must say her death hath not
Made only her deare *Scot,*
But Virtue, Worth, and Sweetnesse *widowers*."

Remainder to-morrow.

### Old Times.

The present season is a renewal of old times—Wheat has done well, not having suffered from rust or weevil, and potatoes are abundant and free from rot. The wheat will make good flour, and the potatoes are as mealy as ever. Unfortunately however, but little wheat was sown, and but few potatoes planted. Could we have our old seasons of wheat and potato raising restored to us again, Maine would bread herself and soon become rich. Who knows but a good Providence means to deliver us hereafter from the evils of the wheat fly and the potato rot?—[Gospel Banner.

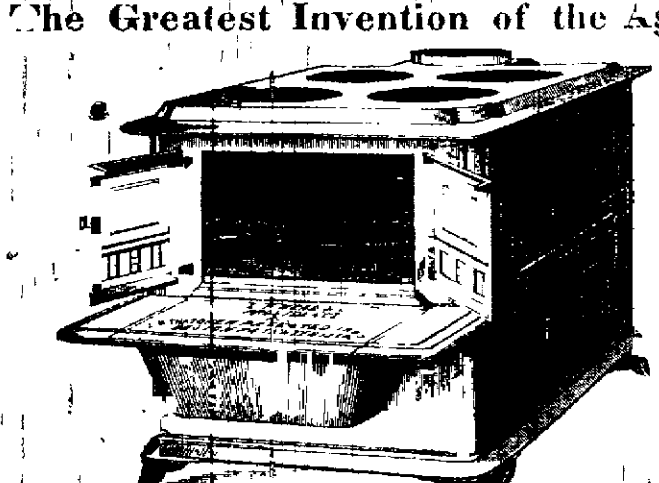
# COOKING STOVE,

## The Greatest Invention of the Age.



## A New Pattern for 1849.

AMONG a host of competitors THIS STOVE for its superior advantages took the first premium at the American institute, city of New York, at the Hartford County Fair Connecticut, at the Worcester Co. Fair Massachusetts; and Franklin Institute Philadelphia.

One very important improvement in this Stove is the patent *Broiling Chamber* ... by which broiling is done to perfection in from four to six minutes, retaining its juices and gives steaks the same fine flavor and pleasant twang of the best charcoal broil (it being equally well adapted to ... roasting or frying) with the draft to the fire-arch passing through the broiling chamber ... carrying off the scent which usually arises from Broiling. The broiling department is ... being operated by the same fire required for other purposes, and not interfering with any other cooking.

The flues being the entire width, and passing directly around the oven, apply the heat alike. The oven for Baking is not equalled by any Stove in use. *Warranted as above.*

### Great Cholera Preventive.

THIS article should be in the possession of every person travelling. It has never been known to fail of producing the happiest results in cases of Cholera Morbus, Diarrhœa, &c., and has during the prevalence of the CHOLERA in this country, been performing wonderful Cures, though it is recommended more particularly as a PREVENTIVE, but is useful in any stage of the complaint. If taken immediately upon the appearance of the Diarrhœa—which is a premonitory symptom of Cholera—an attack of the fearful and fatal disease may be prevented. In Cholera Morbus and Summer Complaints of children, it has no equal. Dr. P. has made use of this remedy in his practice for near 10 years, with the most remarkable success. Price only 25 cents per bottle.

It is see deedly the most beneficial remedy for the cure of Dysentery, Cholera Morbus and Summer Complaint, that is known to man. COMPOUND EXTRACT OF

## SARSAPARILLA,

*Wonder and Blessing of the Age.*

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD!

*This Extract is put up in Quart Bottles—it is six times cheaper, pleasanter, and warranted superior to any sold. It cures when all other pretenders fail, purifying the blood, curing, sickening or dangerous diseases, and debilitating the Patient.*

The great the only and superiority of this Sarsaparilla over all other medicine, while it eradicates diseases it invigorates the body. It is one of the very best

*SPRING AND SUMMER MEDICINES*

ever known: it not only purifies the whole system and attenuates the person, but it creates new, pure and rich blood; a power possessed by no other medicine And indeed this is the grand secret of its wonderful success—In this it has performed within the last five years, more than 100,000 cures of severe cases of disease; at least 15,000 were considered incurable. It has saved the lives of more than 5,000 children during the two past seasons.

10,000 *CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY.*

Dr. Townsend's Sarsaparilla invigorates the whole system permanently. To those who have lost their muscular energy by the effect of medicine or indiscretion; irritation of the nerves, a too excessive indulgence of the passions in youth, or a general physical prostration of the system, no matter whether the result of inherent cause or causes, produced by imprudence, illness, or accident, Townsend's Sarsaparilla can be more surprising than its invigorating effects on the human frame. Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence. Its effects immediately counteract the pernicious effects of the poison which is the great cause of Barrenness:—while it will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted, that hundreds of cases have been reported to us, where a thousand cases where similar to those with our children, after using a few bottles of this invaluable medicine, have been blessed with fine healthy offspring.

*TO MOTHERS AND MARRIED LADIES.*

This extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose herself pregnant, should be without three bottles. *The cares of life*, should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life. This period *may be delayed for several years by using this medicine.* Nor is it less valuable for those who are a preaching womanhood, as it calls into healthful action the whole system. Indeed this medicine is invaluable for all the delicate diseases to which women are subject.

It braces the whole system, renews permanently the natural energies—by restoring to the purities of the body, not so far strengthening as to produce subsequent relaxation—such is the case of most medicines taken for female weakness and disease. By using a few bottles of this medicine, many severe and painful surgical operations may be prevented.

*DR. TOWNSEND'S GREAT BLESSING TO MOTHERS AND CHILDREN.*

It is the most safe and most effectual medicine for purifying the system, and relieving the sufferings attendant upon child birth ever discovered. It strengthens both the mother and child, prevents pain and disease, and increases and invigorates the food—Those who have used increases and invigorates the food—Those who have used it think it the most valuable medicine. It is highly useful both before and after confinement; as it prevents diseases attendant upon childbirth—in Costiveness, Cramps, Swelling of the Feet, Dropsy, Nervousness, Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Rambling, Pain in the Head and Bones, False Pains, Miscarriage, &c. in regulating the secretions and equalizing the circulation it has no equal. The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases excepted. Quite as pleasant as a glass of wine. In Cholera Morbus and Summer Complaints of children, it has no equal. Dr. P. has made use of this remedy in his practice for near 10 years, with the most remarkable success. Price only 25 cents per bottle.

*5 REUMATISM.*

This is only one of more than four thousand cases of rheumatism that Dr. Townsend's Sarsaparilla has cured. The most severe and chronic cases are weekly or daily cured by its extraordinary virtues.

James Cummings, Esq., one of the assistants in the Low tic Asylum, Black well's Island, is the gentleman whose name is given in the following letter:

*Blackwell's Island, Sept.* 14, 1847.

Dr. Townsend—Dear Sir: I have suffered terribly for nine years with the Rheumatism; considerable of the time I could not walk, sit or walk. I had the utmost distress in my joints, and my limbs were terribly swollen. I have used four bottles of your Sarsaparilla, and they have done me more than one thousand dollars worth of good. I am so much better—indeed I am entirely relieved. You are at liberty to use this as the sole of the afflicted. Yours, respectfully,

JAMES CUMMINGS.

*FITS! FITS! FITS!*

Dr. Townsend, during my testimonials his Sarsaparilla in cases of Fits, of course, never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County:

*Fordham, August* 13, 1842.

Dr. Townsend—Dear Sir: I have a little girl, seven years of age, who has been afflicted for years with fits; we tried almost every thing for her, but without success; at last, although we could find no recommendation in your circulars for cases like ours, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and are very glad we did, for it not only roused her from a long fit, but she has had no return of the Fits to our great pleasure and surprise. She is fast becoming rugged and hearty, for which we feel grateful. Yours, respectfully,

JOHN BUTLER, Jr.

*FEMALE MEDICINE.*

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for the most Consumptive, Barrenness, Prolapsus Uteri or Falling of the Womb, Costiveness, Piles, Leucorrhœa or Whites, obstructed or difficult Menstruation, Incontinence of Urine or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes, produced by imprudence, illness, or accident. Nothing can be more surprising than its invigorating effects on the human frame. Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence. *SPITTING BLOOD.*

*New York, April* 28, 1847.

Dr. Townsend—I verily believe that your Sarsaparilla has been the means, through Providence, of saving my life. I have for several years had a bad cough, but no fair attempt to cure it was made by me until I became worse and worse. At last I raised large quantities of blood, had night sweats, and was greatly debilitated and reduced, and did not expect to recover. I had taken your Sarsaparilla a short time, and I have only taken your Sarsaparilla a short time, and there has been a wonderful change been wrought in me. I am now able to walk all over the city. I raise no blood, and my cough has left me. You can well imagine that I am thankful for these results.

Your obedient servant,

## CAUTION.

Owing to the great success and immense sale of Dr. Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, Extracts of Yellow Dock &c. They generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements,—they are worthless imitations and should be avoided.

## FITS! FITS!

### HART'S VEGETABLE EXTRACT

is the only remedy that can be relied on for the permanent cure of Spinal Complaints, Spasmodic Contractions, Irritation of the Nerves, Nervous or Sick Headache, Nervous Tremors; Neuralgic Affections, Apoplexy, Paralysis, General Debility, Deficiency of Nervous and Physical Energy, and all Nervous Diseases and Physical Energy, and all Nervous Diseases that derive, including their most dreadful of all diseases that ever afflict the human race

### EPILEPTIC FITS,

of Fall ne Sickness, Hysterical Fits, Convulsions, Spasms, &c. Dr. Hart would impress it upon the minds of the afflicted, that the Vegetable Extract is the only remedy ever discovered that can cure in all the only remedy ever discovered that can cure in all cases of the most confirmed character. And it has been so for the permanent cure of the most dreadful of all diseases. As its tendency is to insanity, madness and death, the most

### SKILLFUL PHYSICIANS

of Europe, as well as those of our own country, have pronounced Epilepsy incurable. And it has been so considered by many, until this most important of all diseases was made by Dr. Hart, nearly six-teen years since, during which time it has been performing some of the most

### REMARKABLE CURES

upon record, and has acquired a reputation wh ch time will but increase. Physicians of undoubted skill and extensive experience, ministers of various denominations, as well as hundreds of other eminent citizens, all unite in recommending the use of this truly valuable medicine to their patients, clergy, and friends, who are thereby made to feel as the only remedy

### WE QUOTE THE LANGUAGE

of the those who have been cured by this invaluable medicine. One says, "I have suffered beyond my power of description, but now I rejoice in being fully restored to health and happiness." Another says, "I thank God I feel that I am a well man. I also feel it my duty to proclaim it to the ends of the earth, that those similarly afflicted may find relief. Another (who was

### EMINENT LAWYER,

and well known in this city,) says, "my son has been afflicted for years with Epilepsy, but is now enjoying good health from the Vegetable Extract, and says he, "should and ought I to expound to the ends of the earth." And we respond, "Language is entirely inadequate to express my gratitude to Dr. Hart, for having been the means, under the blessing of God, of restoring me to good health after having been afflicted with Epilepsy in its worst forms for more than twenty-three years, and my morning and evening offerings of praise and thanksgiving shall continue to ascend to that God who has afflicted but to make me whole."

Mrs. J. Bradley, 115 Orchard-street, New York, states that she has been subject to Fits for many years, and has been entirely cured to perfect health after every other means had failed by the use of the Vegetable Extract.

Dr. Charles A. Brown, of Dover, Russell co. Alabama, who is one of the best Physicians in the United States, says that he has been much benefitted by the use of the Vegetable Extract, and that he unhesitatingly prescribes it in every case of Epilepsy which comes under his knowledge.

Curtis G. Mayberry, Esq. formerly Postmaster at Lime Mills, Crawford Co., Pa., now living in Erie County, Pa., says that for many years past he has been sorely afflicted with Fits, and is now happy to state that a persevering use of Dr Hart's Vegetable Extract has restored him to perfect health, being entirely freed from that worst of all diseases.

Mr Stephen B Pratt, corner of Sixth Avenue and Twenty-sixth Street, New York, states that Mr Charles E Boughton, a member of his family, has been so severely afflicted with Epileptic Fits for many years that he was obliged to relinquish his business. Having used Dr Hart's Vegetable Extract (says Mr P) he was soon restored to perfect health, and to the city was soon restored to perfect health, and to the city for the State of Ohio to resume his business.

Rev Mr Smith, Rector of St Peter's Church, Spotswood, New Jersey, who has been afflicted with Epileptic Fits for more than five years, states that he has used Dr Hart's Vegetable Extract, and his health has been so much improved that he hopes by Divine blessing to have no more Fits.

### EPILEPTIC FITS,

For twenty-seven years and six months, cured by the use of this truly wonderful medicine.

Read the following remarkable case of the son of Wm Sedore, Esq. of Philadelphia, affected with Epileptic Fits for twenty-seven years and six months.—After travelling through England, Scotland, Germany, and France, expending the most eminent physicians, and expending for medicine, medical treatment and nursing several thousand dollars, was induced by a friend to try this Vegetable Extract, giving four statements—and certificates of so many cases, some of which were of the most aggravated character, and I can assure you I am not sorry I did so, as by the use of Hart's Vegetable Extract at John he was restored to

*PERFECT HEALTH.*

His reason, which was so far gone as to unfit him for business is entirely restored, which is to prosect now before him of life, health and usefulness. He is now 28 years of age, and 27 years 6 months of this time he has been afflicted with this most dreadful of diseases, but thank God is now enjoying good health.

Now, sir, faith without works is dead, believe in.—To any that will be ever grateful to you is one thing, and as I have enclosed you one hundred dollars, I have no doubt you will think this another, and quite a different thing. The debt of gratitude is still owing you, but I hope to accept a small amount in addition on the debt in advance. Yours, very respectfully,

(Signed,) WILLIAM SEDORE.

*THE TIME IS NOT FAR DISTANT*

When thousands who are now trembling under the hand of this dreadful disease, and fearing that every touch may prove fatal, will find a permanent relief and be restored to new life, by using this celebrated medicine.
